Time	Day 1 // Singapore Regional Business Forum
1045	<p>Plenary 1 – Sustainable Supply Chain Management</p> <p>Globally, corporates, organisations and governments are increasingly including social, environmental, and economic criteria into their supply chain management. In ASEAN, the Accelerate Sustainable Procurement in the ASEAN Pledge (ASAP) has been initiated to promote sustainable procurement practices among Procurement and Supply Chain Professionals. The COVID-19 pandemic has driven organisations to diversify their supply chain and seek alternative sources for critical inputs, which could represent significant opportunities for the business communities in Singapore and the region in the creation of alternative sources. This panel brings together international supply chain leaders and input suppliers to discuss how regional collaboration can be further strengthened in such a global shift.</p> <p>Moderated by: Ms Jennifer Tay, Infrastructure Leader, PwC Singapore</p> <p>Panellists: Mr Kerry Mok, President & CEO, SATS Mr Eddy Ng, Head of Group Commercial & Supply Chain Sustainability Solutions, PSA International Ms Olive Tai, Executive Director, Synagie Corporation Dr Robert Yap, Executive Chairman, YCH Group</p>
1130	<p>Plenary 2 – Sustainable Infrastructure throughout the Value Chain</p> <p>Infrastructure plays a major role throughout the global value chains, and the use of</p>

	<p>sustainable infrastructure has become an essential part of sustainable evolvement around the world. In ASEAN, energy and waste are two closely related areas in which sustainable infrastructure development is underway. Under the second phase of the ASEAN Plan of Action for Energy Cooperation (APAEC) 2021-2025, ASEAN governments have agreed to set a target of 23% share of renewable energy in total primary energy supply in the region and 35% in ASEAN installed power capacity by 2025. Waste management as well as its transboundary movement is another key issue in the region's agenda, as improper management of waste may lead to adverse impacts to environment and human health. Converting waste to energy, a new Integrated Waste Management Facility (IWMF) in Singapore will be the world's largest energy recovery facility when completed in 2024. This panel brings together renewable energy and waste industry experts to discuss how their industry is evolving and how their evolvments can shape and drive global sustainability.</p> <p>Moderated by: Mr Teymoor Nabili, CEO & Publisher, Tech Impact Asia</p> <p>Panellists: Mr Thomas Baudlot, CEO Energy Solutions APAC, Country Head SEA, ENGIE South East Asia Ms Cindy Lim, CEO, Keppel Infrastructure Mr Lavan Thiru, Executive Director, Infrastructure Asia Mr Yeo Choon Chong, CEO ASEAN, Surbana Jurong</p>

Time	Day 1 // Singapore Regional Business Forum
1400	<p>Plenary 3 – Green Financing and the Roles of Financial Institutions</p> <p>To drive the region's sustainable growth, an estimated US\$3 trillion of additional green investment is required in ASEAN from 2016 to 2030. This translates into US\$1.8 billion of green finance opportunities in the regional infrastructure sector during the same period. As the regional financial hub, Singapore is positioning itself as the Green Finance Hub for Asia with government initiatives such as the Green and Sustainability-Linked Loan Grant Scheme. Financial institutions are expected to play a vital role in the growth of green financing across the region. This panel will discuss the latest opportunities and challenges in green finance and the role of financial institutions in the global and regional transitions towards green economies.</p> <p>Moderated by:</p> <p>Mr Matthew Song, Senior Vice President, Head of Corporate and Institutional Client Coverage, Global Sales and Origination, Singapore Exchange</p> <p>Panellists:</p> <p>Ms Lim Kim-See, Regional Director, East Asia and the Pacific, International Finance Corporation</p> <p>Ms Audra Low, Chief Executive Officer & Executive Director, Clifford Capital</p> <p>Mr Seth Tan, Managing Director and Head of Infrastructure & Development Finance, SMBC</p> <p>Ms Tan Su Shan, Group Head of Institutional Banking, DBS</p>

Time	Day 1 // Singapore Regional Business Forum
1445	<p>Plenary 4 – Incorporation of Environmental, Social and Governance Considerations into Business Operations</p> <p>Investor demands and regulatory developments have driven businesses to incorporate environmental, social and governance (ESG) consideration into their daily operations. Adoption of ESG principles has created real shareholder value and has proven to be necessary for the long-term growth of businesses. In Singapore, since SGX introduced sustainability reporting in 2016, there has been continued progress in this area, though more can be done – SGX announced that it will spend S\$20 million on a multi-year plan to enhance its ESG capabilities and initiatives. This panel will discuss how they incorporate ESG considerations into their daily operations and how the eco-system can be strengthened to support such a trend.</p> <p>Moderated by: Ms Fang Eu-Lin, Sustainability and Climate Change Leader, PwC Singapore</p> <p>Panellists: Ms Jessica Cheam, Founder and Managing Director, Eco-Business Mr Ahmet Burak Dağlıoğlu, President of Investment Office of the Presidency of Turkey, Republic of Turkey Mr Eric Lim, Managing Director and Chief Sustainability Officer, UOB Dr Darian McBain, Chief Sustainability Officer, Monetary Authority of Singapore</p>
1530	<p>Plenary 5 – Technology Adoption across the Regional and Global Economies to Drive Sustainability</p> <p>In Southeast Asia, the digital economy is forecasted to hit USD 300 billion by 2025. In</p>

Time	Day 1 // Singapore Regional Business Forum
	<p>order to support such rapid growth, development agencies have set up dedicated programmes and initiatives, such as the Digital Development Partnership (DDP) established by World Bank and Asian Development Bank Venture to help developing countries leverage on digital innovations to solve their most pressing challenges. Digitalisation has been a key enabler for sustainability, where it provides data and capabilities for companies, organisations and governments to achieve its sustainable goals. There is huge potential in which technologies, such as mobile connectivity, artificial intelligence (AI), big data, blockchain, and the Internet of Things (IoT), can help produce tangible sustainability benefits. This panel is expected to discuss how to foster technologies to create strategic advantages for businesses while delivering sustainable impact to the society.</p> <p>Moderated by: Mr Maxime Blein, Managing Director, Venture Hub, PwC Singapore</p> <p>Panellists: Mr Adil Antia, Vice President, Digital Technology & Solutions, FPT Software Dr Gerald Hane, Senior Executive for APAC & GM for Corporate Strategy, Hitachi Asia Ltd Mr Tommy Leong, Senior Vice President, Global Marketing & International Operations, Schneider Electric Ms Sherie Ng, Country Director, Singapore and Malaysia, Google Cloud</p>
